The Ninety-Five Theses
The Disputation on the Power and Efficacy of Indulgences
Posted: October 31, 1517
Out of love and zeal for truth and the desire to bring it to light, the following theses will be publicly discussed at Wittenberg under the chairmanship of the reverend father, Martin Luther, Master of Arts and Sacred Theology and regularly appointed Lecturer on these subjects at that place. He requests that those who cannot be present to debate orally with us will do so by letter. In the Name of Our Lord Jesus Christ. Amen.
A Sincere Admonition by Martin Luther to All Christians to Guard Against Insurrection and Rebellion. Here are his words:
Do you know what the Devil thinks when he sees men use violence to propagate the gospel? He sits with folded arms behind the fire of hell, and says with malignant

looks and frightful grin: "Ah, how wise these madmen are to play my game! Let them go on; I shall reap the benefit. I delight in it." But when he sees the Word running and contending alone on the battle-field, then he shudders and shakes for fear.

"who are the real Satanists?" Here is an infograph of our pyramid of war business scheme

When the observers press up with judgments

I play my shadow card

Self defense

//

Noticing how when around different people your music doesnt sound so good, or your own ideas, dreams, passions. Lost in the realm of belonging. Conformity is a force. As if you stopped liking something you naturally had, and would if you changed

location. Or went back inward, introvertical, And also the same goes for forgetting ones cares for awhile taking on another's...

301pm

317pm

I got a lot on my mind, i can't really pay attention right now Some guy just whittling along in his worries about going back home. He's a grown ass man he'll figure it out...

His ticket papers blowing multiple times just isn't fully cognizant

I Grabbed one put a rock on it

Looks like he got tossed around, scarred arm and chin scar surgery going to Portland for it...

336pm

320pm

A smoke for wakefulness Less than an hour more Maybe get some good sleep on bus Doubt it, packed full.. IDK short trip

324pm

329pm now time is too slow actually. Well have to save phone battery 28% but gotta listen to glitch mob album...

I always thought it strange

To dismiss someone's death

Because they cheated on their partner

But that's what McKenna said after he died

And i was a bit heart broken and confused

She said, "well, he cheated on his wife"

I tried to, i said in response, but never succeeded. Well, it was definitely an interest in mind or a possibility i considered.

But regardless, i thought it was really ducked up to dismiss such a great actor Who brought so much joy to everyone. And then just ignore it because "Robin Williams cheated on his partner"

And McKenna had even before i went to jail. Was stein giving her drugs? I wondered what had happen around our ceremony. I think stein is evil. It's sad i gave him his first mushrooms. Then he became addicted to so much synthetic air. This one thing he called Russian cocaine was a robotic like dissacoiative i tried a few times.

He did mwth a lot jerked off a took and watched Alice in wonderland, which i was quite critical of. I He fake synthesized dmt, because when i asked him about one powerful trip he had, he said he couldn't remember. That's ridiculous, the whole point of dmt is to remember.

How many non consensual qualude date rapers are there? The prevalence is higher than people know.

I want to make it easier for people to immediately test themselves for any toxins.

Fuck vaccines as a solution, personally, i know there is better medicine than needles and genetic rewiring. But the toxins in our environment, we don't even know. The high chance of poisoning other homeless. Of being poisoned.

Sadi can't even trust this "ash" (never hear these terms in states) as word for this stuff I got outside library By girl who looked kinda like Eugene/"hippy", "come on angel, you know me" No i don't, you just play homeless in the same town. I don't even know the people i sleep across from, because homeless keep that secret.

...

This was brought up by the guy who claims brother is search and rescue in the military and he's 42 like he needed something to make his life important (mid life crisis males) Kinda nice but seemed obvious actor/ implant compared to most I considered that Devin might actually want to kill me How was the residue that potwnt, have i become that sensitive? I feel sick off the tiniest puff.

They have increased the toxicity even more? Maybe now i am also more in love with life and concerned over even the smallest accidental or purpose mishaps But i had to see And it just made me sick And seemed planned. Like after meeting Devin more actors feel comfortable showing up, giving hash, then alleyway. Because it was their wellfare day, oh my gosh!!!! They think im on Canadian wellfare! Oh my god...

The literal trailer trash They couldn't believe it Even being given prior warning They really are trashy enough to believe such far out conspiracies instead of just trusting and hanging with a dude. WOW. Where are the real hippies?

You can't hate someone

That's the beauty of my

He fell asleep his gun.
He smokes fetty and

they're all mumbling

Speak up, they're
literally retarded.
They actually believe
those conspiracies
Trailer trash.
Hey, i believe in you
joe, they really are
beyond your help. You
have phoenix and kali
/vander in your face,
both are doubtful of me
but on the edge of
belief, probably
related to their own
father experiences and
yours.
Tyler is just generic
military breed
pretending to be an
addict hobo like hassle
the otherfakes in this
town.
Those are the true
clones, military men who
will die for a false
image of their own
father/ country/
history. The military
breeds clones, not
intelligence, or
creativity, or
originality.
It's not your fault your
planet is more obsessed

with assembly-lines than
self realization.

Tyler really wants to be
a nazi and blame jewish
witches for all the
problems in the world
instead of his own
repressed sexuality.

Gay military men will
literally kill to
impress the father they
sexually loved but had
to hide because that's
not military. And
because just a bunch of
closet homos trying to
pretend they're not
sexual hahaha. Look at
their viagra spending.
Look at everything, they
are sexual deviants.
Never creating anything
more and then going to
war to prove nothing at
all except they
Oh, he doesn't see us
They want to keep
abusing spencer Joseph
barrett

Quite a gross
Result of experiment
Quite a gross group of
people
Who keep taking and not
Not
Able
To do anything more
Because of their
conditions

Just annoying to be in
here
With disbelievers
Who pretend to believe
As they play their
Christian music
And don't ask anything
about my ministry
they're all trying to
destroy

So I'll use their excuse
They're all just inside
their head

Their church, their
ministry.
They aren't in their
hearts, they'd rather
prefer i was silent
because the truth hurts
them.

Please, he's just
talking to himself,
right?!?
I wish it were easier
to see these cave men
minds for what they are,
abusers of higher
conscious beings like
Spencer Joseph barrett.
And unfortunately,
they're real.
Bystanders, average
joes who never
considered much before
sjb showed up.
And once he did, all
they did was try to take
everything from him.
Like Chris said "my dad
said friends just steal
everything:
And Chris likely did
that, so did all the
others.

And they wish i was
channeling demons. They
don't know how to
channel their own
passion. I could teach
them, but they're
retarded and never ask.
They just wait for my
next release to confirm
their own bias and
continue being assholes,
that's their nature in
these conditions.

...
At least this nice
cricket game distraction
Well i would prefer
peace n quiet
But that is rare in city
And this crowd is
friendly

Or i just like Indians
for some reason
More than ...
My white "family"
Since youth, i wonder
why...
Maybe its ancestral, or

Idk why a Hindu temple

Well their logic
Their science in their

Not so much parables,

Like the age of the sun
Or distance of moon
Or cycles of years for
each age of development,
the yugas [the ratios
can be applied to an
individual life, which
i haven't tried. If
kali yuga is so long,
and golden age so short,
like the average

And those numbers are
due direct things
But the Bible has a
garble of numbers not
well defined like in

Not to say those numbers

But one is a dreamy

The other is stabilized

To know more that your

But that you can endure
any pain
Like Christ the father

That's what the stare
means to them
Submit before me
Let me ignore my fellow
man

You smiled, now i can
continue
With my abuse

And I'll keep smiling
Because it won't matter
either way
To send the grim mumble
grief face
Is that too forgive or
love your enemy?

And i hate that I'm one
of the few
Who can live their enemy
Cursed to follow his law

Just to watch them all
fail and my own
transcendence

The group failed
Time and time again

But they were up against
a lot
Guess the spirit to
dominate out won the
spirit to be free
In the heart of mankind

To balance the two, to
be discipline enough to
be free

To be disciplined enough
to follow these rights

Oh I'll smile
If it means Avoiding
The father complex
Between two angry
parties
Who meet eyes
By accident
Or planned
Dehumanizing, enemy

complete control over my
body and being is beyond
me. Why not just submit
like a good ol' boy?

Even if you don't
submit, isn't that the
plan? Everything
controlled and
modulated, manipulated
to do exactly as they
please and desire.
Choose A or B

A. "Ooh yay he stood up
for what he believed in,
Good for him were so
proud"

B. "Thank goodness he's
not challenging our
corrupt system, we'd
lose a lot of our
criminal money"

So either way, the end
goal is not desirable,
in the matter of being
apart of a backwards
collective of shit that
can fuck everyone's life
up.

Especially one like me
who had already chosen
to leave the collective

[unconscious] at a young
age.

2013 I left at 19 for
alternative living
options, i am not like
most:

A temple
communes

2015 Then a wife who
really never knew me and
didn't much care for the
media stream channel
content i was creating
(grassroots,
environmental, human
rights)

2017 first charge,
resulted in public
defamation, poverty,
housing and work
opportunities limited,
less free time for
activism

2018 first baby

2019 wrongful death

(2016 grandma,
"argument") then covid19
2020 Arizona, split,
thanks to guy aldama
influence

2022-2024, DOC

2024, civil suit and
asylum

So basically...

1048

I kinda just want to
reward myself with
tobacco right now,
because i articulated a
rational defense to the
suspicion of the average
joe derps simpletons who
are paid to work against
me, or suspicious,
because they lack the
understanding or
background, to
recognize im actually
not that unique, many
people have been
concerned over these
problems for years, and
have lived alternative

lifestyles outside the
mainstream collective
unconscious

..
But their lack of trust
makes it easy for those
in power to turn us
against one another.
They divide and conquer.
I try my best to
remember not to
persecute individuals
and to team up against
collectives but there's
a current detector here
just so happens to be
named "David"

Eerily similar to glin
kindred, but skinny and
more retarded (glin
never talked to self or
clapped loudly,
whistling annoyingly.
Very obnoxious, not in
harmony with nature or
surrounding or
environment, many birds
cawing at him.) just
another paid actor who
doesn't believe in the
record, or transparency.
Who looks like a retard
instead of trying to
unite.

Now that's a good
reflection.
Why's it so hard for me
to remember to unite
others:

1. I don't want to put
the burden on citizens
who can't do anything
about systemic/
government/ design
flaws. But they can
(can homeless not sign/
effect petitions?)

So in a way, this
fellows retardation does
actually help me view my
own "lesser"
retardation. (Lesser
defined by my lesser
impact and noisier)

outbursts which are so
not communal or
attractive or good flow/
courtesy/ mature / adult
)

To discover why its so
hard for concerns to be
taken seriously, why its
hard to recognize or
remember concerns in
certain environments.
This environment has a
lot of potential, a lot
of people who care?...
well, some staff, with
some power to effect and
change a large group of
people in positive way.
Some of them must care
about how they can
actually assist in a
great way. A great
mission.

Hard to gather their
belief or motivation?
Distracted or muzzled.

My father has
reincarnated as a
mindless bunny that eats
next to me
But do not fret
He is more in his nature
And free
Than i could be as a man
Clothes and beds send
shelters, tools to make,
food to grow,
so much work for a man
to be self sufficient
Bunnies tho
just do it
The thorny brush
protects not just the
rose
But the bunny from
predators
Cute
But the disease infected
pack rat, does it only
exist with the people?
Not much by itself? Not
much in the real wild?
Relying on theft and
scavenge through trash
more than the foliage
and leaves the bunny is
content with
Most will reincarnate as
rats, flies and other
"things" modern
civilization seems to
sponsor/breed (more than
human potential)
Other proofs of my
ability to manage and
account finances are
expressed by the extreme
efficiency and
management of beccas

funds which could have
sponsored her
indefinitely but was cut
short of completing the
first earth ship cabin.
But even without it
regenerating waste and
food it would have been
enough just to have the
shelter and stove and
outhouse as the monthly
funds did cover cheap
bulk foods and rain
catch would've solved
water need. Eventually
after probably 1-2 years
we'd have to create
pellets for our stove
after we used all the
dead standing and
possible foraged wood
nearby.
It just came down to
being able to live off
food stamps as only
supplement until some
good bulk food options
were grown locally (like
potatoe towers and eggs,
worldve been first) a
tower would save space
on our 2 acre property.
So my past experiences
show i an more than
capable and very smart
with funds.
Then if i have a place,
maybe people will listen
to me since i have
something they need.
But that's extortion.
Still i would have
specific goals for my
own micro city and would
need to develop its own
protocol for people to
follow to maximize group
harmonics based on my
past experiences.
Another copycat stealing
from joe bear media
produced by the body of
this user.

His fake ministry and
fake care
People need structure,
excitement,
encouragement. But
without spiritual
community in the
dominated globalist city
landscape it is hard.
People treat each other
as expendable instead of
priceless.

A state trapped youth
Attachment styles and
beliefs
Made up to blame their
father
And persecute others
Based on a false belief
in human nature
As sinful
Instead of the reality
It is moldable,
conditional, adaptable
to many environments
besides the globalist
economy which i am
working to rehabillitate
and localize, prepare
But the attentive span
If those who never
gained trust at a young
age

OYA and other youth
trapped by the state
To continue working for
the false belief

Changes if their
property
From joe to jangers boat
to now jewel

He provides a worse
environment with his
house and no structure
Constant drug use and
thievery
No group ties
I recommended trust
building exercises for
the house

Group activities,
movies etc, instead of
joe who just sits
outside smoking and
playing word scapes on
his phone
A subliminal programming
technique
Filling him with
programed words

Instead of contributing
But i can't heal
homeless or parentl re s
youth
From their adoption
trauma
Not by myself with no
resources
No one respects my words
if i have nothing
physical to offer
They just steal my media
for tangential purposes
Still missing the point
of love

And manik is obviously
too depressed to
actually help with
dissemination of
The judgment
On our fellow man
And opportunity for
consent or dissolution
for alternative options

She broke our contract
by leaving me in the
desert
It was til death do we
part
Not til desert do we
part
But she left me stranded
And made her choice
Whether educated or not
She dissolved our
contract by pouncing me
and asking me to get
out. Which i did.
Barefoot, not expecting
her to leave me amongst
cactus thorns
And to leave me for days

And take all my
resources
And force the faith a
bit more

Packrats have no faith
I am no pack rat.
Still i spit on roadkill
What a horror to die in
a road
So common
So frightful
Not good enough though
for them to
Respect my well founded
reasons for proof of
daughters well being
And criticism against
traffic deaths

Harassed by continual
Detractors
Depressing actors
Not hopping on the
exciting
Bringing of world peace

Although i do not consent to be in this town
 It appears "legal"
 To kidnap me and hold me hostage
 Without housing
 Despite multiple well founded reasons
 And legal filings

Civil suit, asylum,
mandate

I have been dismissed
and denied

By a court system, of
international
negligence, disregard
and utter inability to
abide by their own
regulations and
structures

This day in age,
despite all our
knowledge and progress,
the kangaroo courts of
not just the usa, but
Canada as well, find it
acceptable to dispose of
our citizens like a
sticky booger.

So I'm back.

After being held for an
unreasonable amount of
time. Wasted away by
rich, fat pocketed slave
drivers who have an
unreasonable amount of
power without checks and
balances

To sweep our concerns
under the rug.

Now despite this great
sorrow, in this land of
broken dreams, where
our fellow man are
stolen from and left the
hang and dry

(referencing minorities
and general public
abuses at the hands of
greedy corporations who
steal creative content
for their own private
profit enterprises)

Despite this great
sorrow

There are great
solutions

If we can accept the
great responsibility
That comes with our
collective power.

And please do not take
so personally
You may fall in love, if
such a thing is real
But i have well founded
fear for asylum and
legal appeal

And must marry India, i
forgot to visit in youth
for more reasons than
just this life but so
many others!!! A bucket

Do you catch them in

She said to write it

My last crum ;p
Karum
I wrote it all
Many times
One word does better:
Love

Something at 4pm was to
signify me being cut off
from my white mother who
claims birth over me but
does not show true love.
Not to her fault,
benefit of doubt shows
generational trauma as
cause of split from
source/love..
But i am glad to not
have to beg for her to
try to learn live
Or to pay attention to
her son
I am glad to find some
who give that love
Even to one who has
nothing but inspirations
and dreams.
Cfb was never my true
mother. If anything, as
scribed, nana had some
involvement in early
programming/ memories in
light. But i did not
see my mother(cfb) or
father(dpb) in the
light. In the desert, my

father(dpb) came with
sunglasses as the devil.
But i think my nana and
uncle joe do make it to
the light/ heaven.
Still i have no reliance
or interest in such
after such a long period
of silence/ negligence
(familial, medical, et
al) and would prefer to
exit this sinful America
family envelope to
obtain a new identity
around real
spiritualists embedded
in authentic community.
My mother cfb was not
interested in that, and
i cannot save everyone.
But my mother earth,
she surrounds in more
than one dorm. And i
miss her forests/
mountains/ jungles.
Cities are depressing on
the spirit, so low to
ground.

The second comes when

"Teach us something!"
Fat smoker voice who
lays with his ass
uncovered below me in
view said last night,
the same one who tried
implanting ideas of "the
shift" when i woke up
that night of the
4th~10pm

Sad, they all become my
enemies

WHEN OBSERVATION GOES
WRONG

And the observers cause
the observed

To not act in their
nature, due to the
observers not acting in
theirs

A reflection of
ignorance

How much hatred the
observers cause

The parents to their
children

After not listening over
and over again

So i would love to teach
a bunch of retards
something, but they
aren't doing anything
legitimate with it.

They're hard in the
wrong directing, led by
a wrong leader, they
don't know what being
humane is. They're not
humanist, they're not
human. The observers in
charge of the

surveillance state and
various illegal human
experimentations.

Gas man Luke already
confessed he was
beginning to feel guilty
about protecting his
religious views and
invading privacy, but
then he de individuated/

resolved his dissonance
with a certain set of
beliefs.

Wanna know what those
set of beliefs are?
They'll allow anyone to
feel fine with invading
privacy, even murdering.
Its the same as the
nazis.

"You're all rapist
pedophiles"

That's the belief,
But they lack a basic
education in
understanding history,
or peace or compassion.
Done might actually
consent to being
watched, maybe loved
daughters who didn't
have the freudian father
odipus complex pushed
onto them.

These historical bias
that effect the family
unit. General
"masculine" (afraid to
be intimate, close with
same sex. "Icky ee
gooey", etc) cultures.

They've created while
groups of people who
hate that feeling.
Im not an actor, i hate
the lack of listeners,
I'm not going to act in
love when I'm in hatred
of the negligent
surveillance state.

"Take as long if a
shower as you want, no
rush" - (not like the
shower is available 24/7
and is often empty/
unused, you fucking
retard) gas man luke who
chants Japanese mantra
and speaks of going to
Israel after head injury
to view the book of
names.

They can keep sending in
agents with

misinformation of me,
too completely duck with
my own sense of self,
their own convinced
narratives.

"THIS IS WHO YOU ARE"
Actually know, if you'll
give me the tools to
express myself, instead
of enslaving me in your
retarded conditions.

Here let's move them
place to place, all we
have to do is annoy
them, kids,
uncomfortable noises
subtle threats.

That's not human, what
you're doing to your
homeless is genocide.
You idiots really don't
feel guilty, that's how
you proved the
conscience doesn't exist
for those in power. They
like to feel like
they're doing the
watching, not that
they're being watched by
someone with a logical
foundation.

Years of retards going
against humanistic,
compasdionate, the
mother of light
sciences. Not these
false fathers mothers of
darkness that rule
cycles of thousands of
years, and might have
already destroyed our
chances for peace in
this timeline.

They grew up in a
garbage culture and they
want to defend their
garbage. They don't even
know how toxic it is,
they'd rather blame
individuals instead of
establishing third party
accountants/ auditors
for each institution.

I left the garbage culture behind at a young age, im not like you guys, but I'll pick up some of your garbage and reflect it back at you, if that's what you like, if that's what you need, to confirm your own bias (is a lot more affordable to buy a mirror).

Tree cams, window cams, they're scared of me looking at them with the disgust they look at me. I'm not that disgusting, but I'll try to share your own hatred at all life/ earth.

That's WHEN OBSERVSTION GOES WRONG and the observers themselves need to be dissected to see why their observations result in such ways.

Only the most peaceful, at balance, harmonic cultures, should be able to observe others. If you're an American, your a parasite by mate association, a lot of parasites can serve some purpose, but in numbers they're very bad for the health of the whole eco system.

If you don't have a harmonic lifestyle, culture, which is very easy to measure and peer review. Which has been said for years on my part.

The observers still denying a basic education. They want to be taught something else. They want to feel guilty like they are.

But they can't even feel anything, they have too much power. You don't feel guilty if you're not afraid.

Fear and guilt are synonymous

You don't really know when someone is guilty, you can sometimes tell if they're afraid. But of what? It's not so easy to see. But they don't understand Jesus tried to teach the same thing.

You can either call individuals guilty, punish and shame. Or you can heal them and attack the collectives who create the individuals and who commit mass crimes Collective unconscious only lives due to the lack of a verifiable comm. System Which would turn all the various collective unconscious' into one solid collective conscious.

But they're afraid of the collective conscious. Because then they won't bake too live in their false realities anymore, all these "authorities"/ delusions of grandeur (that's the definition for CEO/ corporation because non exist that can handle the criticism/ transparency)

In short, i wasn't raised with comfortable observation, i was just raised to look comfortable, and i do it good "SMILE!"

I actually want to kill you, but long term, its not a viable option. But that's what your observation does to me. It makes me want to kill you for diminishing me, reducing me to a shpeckle. That's the rage you guys give to people. You mother and fathers of darkness, you insects who don't know the blessings of mammalian companionship, touching, listening, responding, teaming (Well some insects might achieve more companionship than most humans in usa nowadays, so i mean to target an undesirable insect. Which is what the state does to individuals. Target an undesirable. Yet once you really inspect every creature, it does seem to serve purpose, just not the ones we as humans want to upholds, or could if we one what universal human rights were or our own history...

So i don't even want to reduce you observers and garbage culture Americans to an insect, rather, just inhuman as defined by ww2 and afterwards. Your still committing genocide, but you wear nikes and have a smart phone, so genocide isn't a big deal.

I can't even speak for myself. Under observation, if they think they're on my team or not. They don't know who i am they don't use contracts or criteria or

alternative options.
 They'd rather project
 their split
 brain/cultural
 dissociation into me sjb
 Sure let me be your pin
 cushion.
 Could be worse, could be
 better.
 Caught in limbo infinite
 timeliness of cultures/
 generations missing the
 whole point.
 So many tangential
 cultures from fairness,
 equality, dignity,
 peace, environmental
 harmony, for so many
 years, and maybe for so
 many more.

Please excuse me as i
 dissolve back into the
 collective unconscious
 again because to sit
 with this justified
 anger, these well
 founded fears, iys
 socially unacceptable.
 The norm odds to not be
 passionate, because
 everyone's sleep walking
 and to disturb their
 sleep is rude. You'll be
 diagnosed for disturbing
 their doto bird sleep
 walk. For claiming
 there's something to
 unite over, to wake for,
 to join in excitement.
 But a lot of the time,
 the excitement is scary
 to them, its
 responsibility, its
 movement, its what
 they've been trained to
 dislike.
 Poor conditioning, poor
 conditions, poor
 leaders. Poor in
 spirit. Surely they're
 rich in materialism.

Annoying deep state agents speaking right when i wake up

As if i don't know that most these people already know me.

Their lack of organization or actual work is annoying, waiting for transparency, maybe they're accomplishing more than i see, but mostly what i see is them just distracting, detracting , annoying.

Hard to organize real citizens, let alone homeless shelter deep states.

The difference between me and the deep state is many, culture of peace vs war profiteers. But they can silo off us all and make us all into deep state without our awareness so long as we don't have unified comm system. Or com systems that exclude certain individuals.

Mostly just hungry?

Would be nice to have private place, study to accomplish more or a team on the same page. Wondering when next city counsel is and futility of it but still presence is important to dissent, lack of views is disappointing. How much change are they enacting, how much are they stalling, how many at counsel meetings are just paid actors, hard to determine without group surveillance / transparency.

It really sucks having

transparent, yet so
needy they steal my
attention.
I cannot work on my
projects when surrounded
by needy lost people who
do not take directions
or listen to the
solutions i have for
their simple problems.
Which includes a
responsive modular user
friendly government.
Instead of bad actors,
with false narratives,
who keep, by their very
disbelief,
altering/adjusting/misdi
recting my own personal
goals/projects

I could make videos but
every audience member is
coming to it from a
different direction.
Luckily, we have the
same needs.
Universal needs.
Its unfortunate, to be
surrounded by needy
children, especially
when they don't take
direction. So why am i
even here then, if you
don't need my direction,
leave me alone, i
surely don't need your
direction.

Id like to be
compassionate, but when
they continually don't
listen or take my words
seriously, its more
harmful to remain around
the sickness.
Until they can learn to
take direction, or stop
misdirecting others who
need to get to the
stable place/base from
which they are free to
think and make decisive
for themselves.
It is a great/massive
waste of time to not
take your fellows
seriously yet you just
continue to butt in.

My words change, to

(quote unquote, because
they are not listening

they cannot understand
that universal housing
is a must and a pre
requisite for consent,
then they need lessons

humanity)

and my own pain amidst a chaotic jumble of pain. I have made myself clear, if they are not helping mother earth they are not worthy of my service, that is where my business ego comes into play to make deals. They wasn't me to be their ptsd slave. They are disgusting in their control and misdirection. Instead of loudly distracting me, provide an easier communication forum to understand my freedom to think for myself. You have wasted 5 years of my life, usa. And made me miss things which i cannot put a price on. And you continue to traumatized and enslave like ignorant parents who think they have something to teach bur have lost their own cultural backbone/history/identity. Your government makes peyote fight for their needa, against one another, because the government is too poorly organized and managed to take all the children's different/ unique yet often universal needs seriously. Universal needs have been collectively defined. You fail to recognize your own collective world historic agreements. Universal human rights.

Id rather enlarge, than shrink people. Maximize their potential, take every concern seriously and give them the skills to handle them all. Instead of shrinking them away from their concerns, anxiety, "disorders", help them claim their hearts legitimacy.

Great, you're all fucking annoying, i used to like people too much, now you just depress the fuck out of me.
Id like to lock you up for as long and then make fun of you afterwards, how's that sound. Doesn't sound very nice does it?
You all are literally evil as fuck, its not funny. Fuck Eugene. Fuck Oregon.
Shithole "family", fuck off.

624pm
I just wanted to save that email draft

Its more important to me than any of you

641pm
What a bunch of dip shit control freaks
{Haha we know how your brain works!! We can make you do anything}
*they removed an important email draft because they suck at communication.
They think they're teaching me something, what a bunch of heartless fucks. So deaf to what people really need, not this garbage town Eugene.
Wish they would all just die instead of spying on me like assholes who don't know how to be human.
They just make people hate them.
They don't know how to make a more user friendly system, they're a bunch of ignorant fucks in a disgusting town of boxes on boxes in boxes around boxes. Box people. Boxwood. Box you in and then laugh at you.

Hope they pay you in nuts
Enslaving the whole animal kingdom.

They don't have a conscience, i already proved it. Rapist government motherfuckers.
You guys are truly disgusting.
No one wants to perform in front of you, well especially not me. Your face just depresses me, I'm not gonna prove

myself to you, i hate you, you didn't talk to me at all, you don't care about me, i have no real family. Get the fuck away from me and fuck this autocorrect shithole outdated technology.

Learn what real friendship is, cause this isn't. Why is it so hard for you dipshits. You like that word? Dipping your stick in to check the oil levels of my car.

Thanks, i hope it's good enough for you. Oh you don't like it, just blame my car, its my cars fault its gonna overheat, not the oil.

{We don't understand whole systems or consent, we're literally a bunch if evil retards with too much technology for our own good}

Well how about letting people opt out of your peeping tom cult, how about you let people live naturally, how about you share the tech transparently, how about you just learn how to be humane to your underlings/ "fledglings"

.
How much of humanity have you guys dumbed down, reduced, wasted, killed?

Why is that funny to you assholes?

(This is a conversation from Sjb to unconscious and unconscionable surveillance parties)

I just wanted to see my daughter

{HAHAHA WE DON'T GIVE A FUCK WERE A BUNCH OF

POWER HUNGRY PREDATORS
EHO FEED OFF YOUR
SUFFERING. WHY DONT YOU
JUST PLAY AS OUR DOLL,
LET US PLAY YOU}

playing someone is not the same as playing with someone, and non of you know how to do that if society is still the same shit hole as i last saw. You have all this data and tech at your disposal and we're still living in big cesspool garbage towns. Great. Good job you guys. Hope you're proud and narcissistic enough to dismiss all legitimate constructive criticism.

The surveillance state doesn't think anyone can see them. The surveillance state doesn't believe in God or creator or an all seeing eye or universal record keeper. The surveillance state lives in an imaginary world of their own design.

Yuppies with too much money and ego, pseudo intellectual apes just dominating their fellows that's all they're doing, they can imagine its because they're smarter or more worthy, as most rich and powerful do to reduce their cognitive-dissonance/ empathy/self-awareness

You're trying to pretend to be friends in a pseudo community. Do any of you ever actually receive educations or do you just try to give them?

This isn't a friend culture, you guys don't know how to be authentic, that's the whole point. You're all living in an alternate unconscious reality where you don't believe in divinely regulated permanent record and accountability. Its not your fault though, you have no "proof" someone, something so much greater is watching all.

They deleted my becca is real rough draft email where i said i just wanted to see my daughter

Because all the surveillance state just wants to fuck their children and can't take a fucking necessary joke Yeah im a schizo that fucked my daughter, are you guys fucking retarded.

Stop fucking with my shit, you ignorant fucks have no idea what love is, get over yourselves, in not staying in this state you stupid fucks stole my backpack to turn me into one of you, a garbage citizen.

I don't want to be like your pedophile society, i don't want to be here. Eugene is a shit hole that's why i left.

That's why my parents didn't want to raise me here. This town is legally run by evil retards that are fucking up the hippies, polluting their spirit with carnal apoetites. That's what you guys did to the hippies, you turned them into one of

you, blind, colorless

Your bosses are like

their pets. You think if
most people didn't lock
their pets at home if
they would actually come

Those aren't pets, those
are slaves, very few

doubts ... otherwise,
you're just making money
off stealing my content

pre-meditated/ulterior-
motivated goal/
conclusion/ purpose/
mission
I have stated mine quite
clearly as unitarian
universalist
Your war on unity, your
profiting from
separation (1. me from
you or 2. me from others
or 3. you from others)
and the evidence which
shows your true
relationship and
behavior despite your
politically correct
snake talk which amounts
to an out of date
operating system were
all drowning in, since
ww2.
This operating system:
the globalist assembly
line is so expansive and
far reaching and able to
avoid such oversight
that we somehow still
manage to support modern
slavery. And somehow
many do not know this or
care enough to approach
the city council. But
more than the
individuals effort is a
systematic and group
effort to [conquer and]
divide so even an
individual who does try
earnestly is kicked down
until their [inner] beat
[/rythm] dies.
Janger said i killed
joes spirit.
But he killed mine by
playing word scape

instead of actually
doing a collective
ministry which he
professed by his simple
offering of space.
Which actually felt less
safe than the general
cityscape.
I offered a few editing
ideas that just
exhausted him, "that
sounds like a lot of
work" he had said in
reply to me asking if i
could grab a bucket and
do laundry in yards.
Since my clothes start
to smell like
shit/diaper unchanged.
Normally easier to take
care of myself but lack
of resources and no lack
of chaos or loud
distractions makes it
very easy for an
individual to forgo
personal health when
homeless.
I still manage, but am
over par from simple
decisions to by
necessity have to cut
out some very basic
needs just to have more
time (otherwise just
being my most basic
needs could take all
day; considering laundry
and shower. Which on
the tail was a fun
meditation, whole self
care easy there in the
forest without so many
people and things taking
attention at from self
care for their own
collective lusts/
desires/ confirmation-
bias etc ad on infinitum
blahblahblah
You like it
My oversight
Or my peeping tom
I know you like watching
me

I don't consent though,
and so we're at an
interesting place. Where
i have been neglected
the responses required
for a true transparency
initiative and i am only
disclosing the same
thing
Your observation is
actually doing more harm
than good
If meeting basic needs
Universal human rights
Is not an opportunity
for all
That includes the right
to security
But only by consent
If i don't want your
security, because it
sucks, evidenced on
multiple layers, the
real well founded fear
for my family, myself,
my community, my
nation, my world. And
so i say your security
sucks, i don't want it.
But you push onto me
like a bad father/
authority/power complex
and say it's okay. But
it's not in this
instant, and that is
rape to say otherwise.
Governments raping their
citizens through faulty
science/lens/narratives
which has a drastic
effect, could actually
be helpful instead of
hurtful.
Could provide all
options to mediate
behavioral quirks
Only used by ad agencies
for profit
Could streamline
efficient groups, master
teams, just really
productive and
compatible people
together.
By choice though!

Its strange giving the
people a choice is so
hard for our rapey
government.
But the government is so
fat, with hands tied in
one department vs
another. The assembly
line has gotten too big
to regulate itself and
evidence shows. Follow
the money trail (and
carbon footprint trail.)
...

How long till all the
clocks harmnize?
2000 years? Shouldve
been long enough
But people are profiting
from the continued
disharmony so its not
naturally syncing up

To deny what I've
disclosed
To ignore it from
disbelief
I tried to connect
But i am not like you so
it will be hard
Or never
Leaving behind the
degenerate plebs,
collective unconscious,
groups of distrust
ignorance and
miseducation. But have
to wait for my
rightfully earned works
and record keeping.
Because the facts cannot
be denied
Prisoners raped by cops
all over the country
A secret society, their
firm of karma even if
they falsely convict you
is to rape you because
criminals deserve that
All a trip report
because these fucks
never felt emotions
To them an emotion is a
psychedelic trip they
need to deny, to ignore
In their shut globalist
lifestyles, fake work,
fake productivity,
massive pollutants...

Maybe the future is
filled with robot
children

Maybe that's all the
masses cared about
A mystery

I thought it was a
matter of culture
Of conditioning the body
To not be so carnal
Truly higher levels of
love
Unlocked by the
compassionate master
Privileged vegetarian
diet
Still denied by common
cultural ignorance and
expensive provision
7 years vegetarian,
wish i could return but
having faith in that god
will keep sending
deepstate actors to act
in bad faith and
regardless i know they
know but they don't want
to respect my dietary
and spiritual/ religious
science, experience,
and commitment.

They're jealous they're
not doing it.
They'll make up any
excuse to discredit you
and your work.
They're incapable and
only digest media
I create it.
Stop consuming and
create. Otherwise you
are never in control of
anything. Create more
broadcasts, never stop.
Overrrun the monopolies
and bad actors.

The great thing is, i
have the skills to
broadcast more
effectively than

unskilled preachers who
just talk outloud and
offend people. I can
work via subliminal
radio digital 4g
networks to maintain my
inner voice, truth,
reality amidst
distractions and global
genocide.

I would be vegetarian

If that was a viable

But poorly made,

vegetarian or slightly
less incomplete cheap

its sad.
Organic vegetarian is a
right i an not afforded.
As are many
And i presume this is
what evil is made of
What can make a person
so evil
What deep down

Carnal
stories/appetites* and

diet do increase carnal
behavior
Non veggie Christians
are too carnal and dense
to understand the truth
of love
Their Chakras is closed
at the heart until they
find appropriate
sympiotic karmic balance
with the living world of
heart creatures, a grid
of hear, few ascend
above 4 ft unless they
become vegetarian
Literally astrally
emotional bodies too
dense/ heavy/ drowning
But sure, some meat
eaters may consider
themselves compassionate
as they slaughter their
pet/ slave to support a
family
But compassion is as
compassion does. any
killing is restricted as
much as possible to
their own mental and
physical capacities and
levels of awareness'.
So to increase those
capacities
Examine the benefits of
providing privilege for
healthy whole vegetarian
diet
Eggs are considered
viable, without the
life spark the ovary is
power house nutrition.
Ovolacto if milk is
produced without harming
cow or cattle
So ovo-lacto vegetarian
is what i was for 7
years, i did eat sea
food and was while
organic vegan for some
periods but that is even
more expensive and
difficult in today's
monopolized strangle
hold on food/ hunger/
health/ peace.

Manik depressed
Whose name i already
explained my dislike for
But enjoy his company
sometimes
He said something which
i was to recall but must
remember again
...
Oooh i almost had it!!!!
Well, it keeps coming
back at intervals
(thought loops worthy of
examining, recurring
archetypes/ themes/
pasdions/ inner-compass/
So i just have to be
patient
Or grateful for an empty
in the moment mind i am
now privileged to see
whole without returning
to past
